Congress of the United States

To Whom it may concern:

I have known Lee Woodard and his family for more than twenty-five years. They are from Osceola, Arkansas, which is also my home town, and so I feel as though I have a very clear appreciation of Lee and his abilities. Additionally, Lee worked in my office this past summer as an intern.

I can state without equivocation that Lee is an honest, hardworking, and completely trustworthy individual. He worked well with the diverse personalities here in my Washington office and performed all his duties efficiently and effectively.

I can highly recommend him for any position of responsibility he might seek. I think he represents the best that Arkansas has to offer.

With kindest regards, I am

Sincerely,

A handwritten signature in cursive script that reads "Bill Alexander".
